Nguyễn Thái Hiệp

Project Manager

Review

Last two week, I took some steps to complete PA02 and plan our new campaign.

Completed:

- Completed requirements from PA02
- Wrote and published reports for each mission
- Plan and apply work division on Trello
- Strictly follow the RUP and Scrum model

In progress:

- Prepare for PA03

Outcomes:

- Use Case Model
- Use Case Specification Document
- Vision Document (edited Product Feature item)
- Project Plan (edited Project Schedule item)
- Detailed report documents

The main challenge we face is that the team members have no work experience. I think one solution to this is to let the team members get to know each other more in the following weeks. This will help our team work faster and more thoroughly in the future.

Detail

First, in the past week our team divided the work for Use Case Model and Use Case Specification as follows:

	Nguyễn Thái Hiệp	Lê Nguyễn Lan Vy	Phùng Nghĩa Phúc	Đoàn Ánh Dương	Dương Quang Bình
Use Case Model	All team members do during group meeting				
Use Case Spec.	Cart, Add to Cart, View order, Checkout Items, Announcement among staff, admin and user	Login, sign up Change, password of account, Chat with seller, customer	Edit services Call customer support, Edit Products, Delete product, Add product	Show information of Accounts, Edit Account, Delete account, Show sold-out information	Show the products statistics, Show the sales statistics

Second, all members of the group have been active during the past time and there is no late submission of deadlines. Compared to Sprint 02, currently the team members have made more progress in scheduling, working quality,...

Third, The meeting was held at the University of Science in Hall I on 6th June, 2022 at 11a.m. The purpose is to review what has been done, plan current and future tasks.

- Review each team member's submissions and suggest corrections if necessary
- Read together the requirements of PA03 and give comments on its implementation
