Nguyễn Thái Hiệp

Project Manager

Review

Last two week, I took some steps to complete PA03 and plan our new campaign.

Completed:

- Completed requirements from PA03
- Wrote and published reports for each mission
- Plan and apply work division on Trello
- Strictly follow the RUP and Scrum model

In progress:

- Prepare for PA04

Outcomes:

- Use-case specification
- Define software architecture
- Class diagrams
- Weekly report

The main challenge we face is that the team members have no work experience. I think one solution to this is to let the team members get to know each other more in the following weeks. This will help our team work faster and more thoroughly in the future.

Detail

Task member :

	Nguyễn Thái Hiệp	Lê Nguyễn Lan Vy	Phùng Nghĩa Phúc	Đoàn Ánh Dương	Dương Quang Bình
Define software architecture	Logical View Logical view-Component	Intro Document Logical View Logical view-Component	Architectural Goals and Constraints Logical view-Component	Logical View Logical view-Component	Logical view-Component
Class Diagrams	Payment	Cart	Products	Account	Order and activities Statistics-product, customer, revenue

Update use-case specification	Fix use-case model	SORT FILTER	Rating & comment a product Use-case: Coupon	SEARCH PRODUCT	View detail of product

Second, all members of the group have been active during the past time and there is no late submission of deadlines. Currently the team members have made more progress in scheduling, working quality,...

Third, The meeting was held at the University of Science in Hall I on 3rd July, 2022 at 11a.m. The purpose is to review what has been done, plan current and future tasks.

- Review each team member's submissions and suggest corrections if necessary
- Read together the requirements of PA04 and give comments on its implementation
